Abdur Rahman
Full-Stack JavaScript Developer

Profile:

- **React.js | Next.js | Frontend Development**
  Software Engineering graduate with expertise in developing high-performance web applications using React.js, Next.js, and modern frontend ecosystems. Proficient in **state management (Redux, Context API), Typescript, SSR/SSG, and UI libraries (Tailwind, MUI).** Strong problem-solving skills with a focus on clean code, performance optimization, and seamless user experiences. Eager to join a forward-thinking team to build cutting-edge digital solutions.

Experience:

Frontend-Developer React JS
Block Software Solutions   Jan 2024 - Present

- Built 10+ scalable Apps using React.js, hooks, and Redux Toolkit, improving performance by 35% via code-splitting and memoization.
- Architected responsive UIs with Tailwind CSS and Material-UI, reducing development time by 20% with reusable component libraries.
- Integrated 10+ REST APIs (Axios) for real-time data workflows, enhancing user engagement by 40%.
- Collaborated on backend logic using Node.js, Express.js, and Mongoose for building and consuming secure REST APIs with JWT authentication.
  Technologies: React.js, Redux-toolkit, MUI, Git, Node.js, JWT, Axios

NEXT JS Developer
Block Software Solutions   Oct 2024 - Present

- Delivered 5+ production-ready apps using Next.js, leveraging SSR/SSG to achieve 90+ Lighthouse scores and 40% faster SEO rankings.
- Architected hybrid rendering solutions (ISR + CSR), reducing server costs by 30% while maintaining dynamic UX.
- Implemented NextAuth.js & API Routes for secure authentication, cutting development time by 50% vs traditional setups.
- Optimized edge performance with Next.js 14+ features (App Router, React Server Components), boosting TTI by 35%.
  Technologies: Next.js 15, SSR/ISR/CSR, NextAuth, Tailwind, API Routes

Projects:

- **Next.js Project**
  Built dental App with Calendly API booking (45%), NextAuth & hybrid rendering (SSR/ISR/CSR), achieving 90+ Lighthouse via ISR optimization

- **SwiftCart | MERN Stack**
  Built e-commerce PWA (Progressive Web App) with JWT auth, custom order API, reducing cart abandonment by 35%

Education:

Bachelor's in Software Engineering (BSSE)
COMSATS University, Attock
2018 - 2023

ICS - Intermediate in Computer Science
Chenab College, Jhang
2016 - 2018

Skills:

Working
React - Next.js - Redux - Typescript - Tailwind CSS - Node.js - MongoDB - API Integration - JWT - NextAuth - SSR/ISR - PWA - REST APIs - App Router - Agile Methodology - Code Optimization - SEO

Tools / Softwares
VS Code - Git/GitHub - Postman - npm/yarn - ESLint - Prettier - Figma - Adobe XD - React Testing Library - Chrome DevTools - Vercel - Netlify - MongoDB Atlas - Postman - Swagger

Hobbies:

- Attending Tech Workshops/Expos
- Reading Tech Blogs
- Exploring Things
- Football - Table Tennis - Badminton - Traveling
